

Calendar.c File Reference

```
#include <stdio.h>
#include <conio.h>
#include <windows.h>
```

Functions

```
int  getKey ()
void display (int, int, int, int[])
void calendar (int, int)
void gotoxy (int x, int y)
void SetColor (int ForgC)
int  main ()
```

Variables

```
char * month [] =
    {"January", "February", "March", "April", "May", "June", "July", "August", "September", "October", "November", "December"}
char * week [] = {"Mon", "Tue", "Wed", "Thu", "Fri", "Sat", "Sun"}
```

Function Documentation

◆ calendar()

```
void calendar ( int  nyr,
                int  nmonth
                )
```

◆ display()

```
void display ( int  nyr,
               int  nmonth,
               int  tdays,
               int  days[]
               )
```

◆ getKey()

```
int getKey ( )
```

◆ gotoxy()

```
void gotoxy ( int x,  
             int y  
            )
```

◆ main()

```
int main ( )
```

◆ SetColor()

```
void SetColor ( int ForgC )
```

Variable Documentation

◆ month

```
char* month[] =  
{ "January", "February", "March", "April", "May", "June", "July", "August", "September", "October", "November", "December" }
```

◆ week

```
char* week[] = { "Mon", "Tue", "Wed", "Thu", "Fri", "Sat", "Sun" }
```
